

Map, showing the planned survey cruise tracks (red lines) for the Faroese "Tróndur í Gøtu" as part of the international mackerel surveys in the Norwegian Sea (IESSNS) in July 2016. The coordination of the surveys is within the ICES WGIPS with the participation of three parties: NO, IC and FO. The Faroese M/V "Tróndur í Gøtu" will cover the Faroese area extending into Icelandic area and into Norwegian waters a couple of times.

The total cruise plan for 2015 is attached below, the 2016 plan is similar.
