

NOTIFICATION OF PROPOSED RESEARCH CRUISE

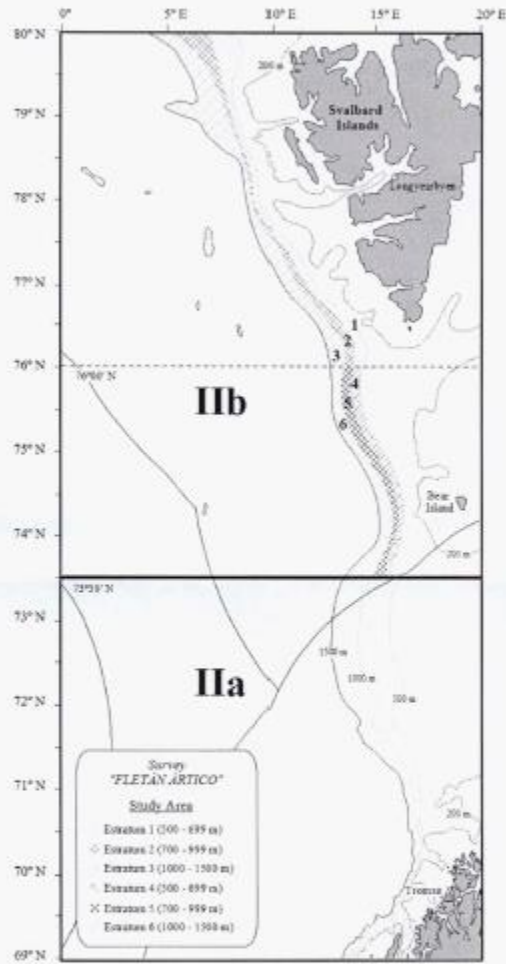

Figure 1. General map of the North-East Arctic showing the location of the study area (Lat. 73°30'N - 80°00'N) in the slope of Svalbard (Fisheries Protection Zone around Svalbard), as well as the sampling strata considered and its ranges of depth (according to the stratification model used in the Norwegian survey started in 1994). Spanish bottom trawl survey "FLETAN_ÁRTICO 2017".
