

## Attachment I: General chart

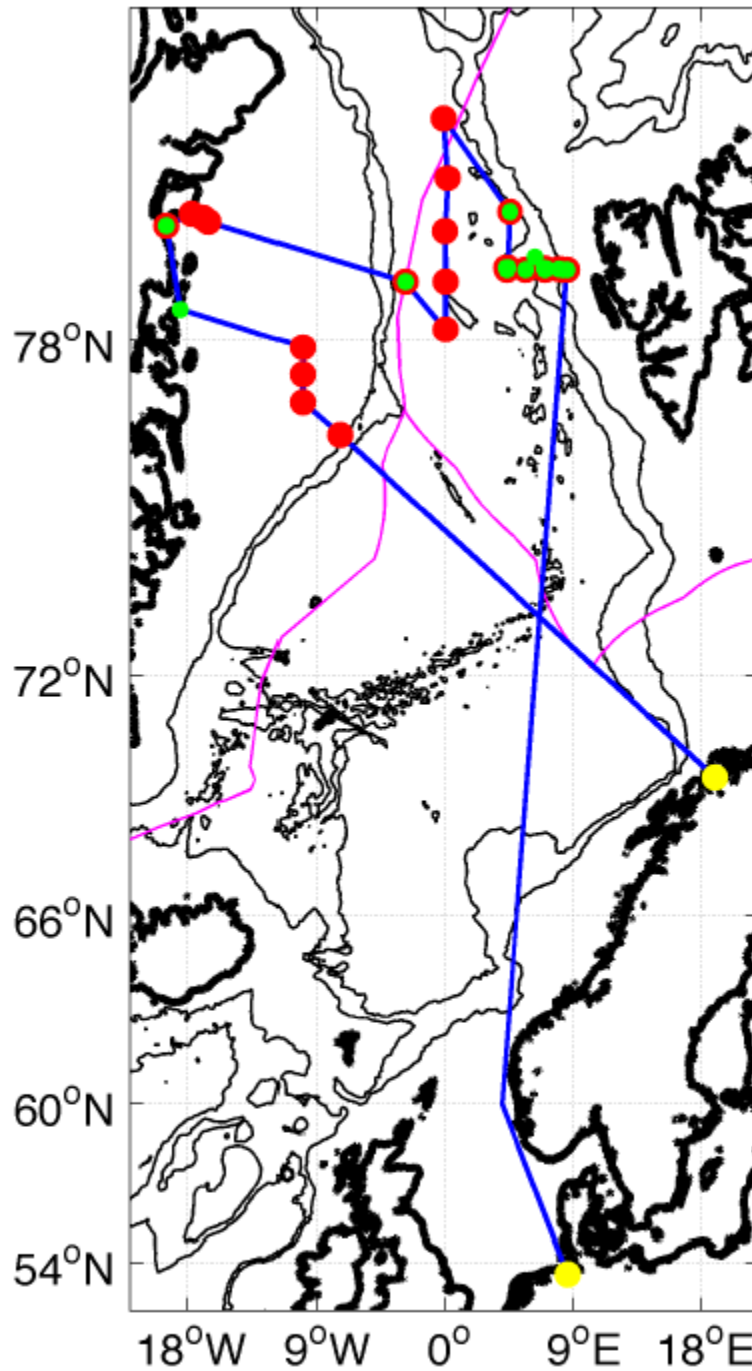

Fig. 1: Planned cruise track. Blue: cruise track. Red: mooring recoveries. Green: mooring deployments. The station work will be in the vicinity (less than 60 nautical miles) of the mooring recovery/deployment locations. Black: 0m, 1000m, 2000m isobaths. Magenta: Svalbard and Greenland EEZ. The final location of the mooring deployments will depend on the sea ice conditions.
