

**DRAFT STANDARD FORM C**

**PRELIMINARY CRUISE REPORT**

Cruise name/number:	F2025-036 - Waterproof Expeditions
---------------------	------------------------------------

Authorizations:

Coastal State	Authorization Document Number	National Participant(s)
Norway	CRM: 0052458	N/A

Scientist in charge of reporting:

Name:	Ashley Bugge
Country/Nationality:	United States of America
Affiliation:	The Seabirds Foundation
Address:	5422 NE 51 <sup>st</sup> Circle Vancouver, WA 98661
Telephone:	#360-931-0826
Email:	ashley@theseabirds.org
Website (for CV and photo):	www.theseabirds.org

Brief description of scientific objective:

We are a team of female citizen scientists proposing the deployment of hydrophones in the remote and data-scarce waters of Arctic Norway. Our mission is to create an open-source, context-rich database that blends underwater acoustics with visual media (photos and videos), environmental data (including Secchi disk measurements, and salinity readings), and precise geolocation. By combining storytelling with science, we aim to offer a more accessible, engaging, and comprehensive view of these understudied marine regions. Our unique access to these Arctic and sub-Arctic zones positions us to contribute critical baseline data to global ocean knowledge, helping scientists, educators, and the public better understand and protect our shared ocean.

Update on anticipated dates for delivery of final results:

Metadata:	November 2027
Raw Data:	November 2027
Processed Data:	November 2027
Data Analysis:	November 2027
WODC Data Registration (if applicable):	Accession number
